Community Leadership Short Story Outline

1. What was the topical focus / issue that your community leadership effort addressed?
 - ✓ Name the issue.
 - ✓ What are the *top two or three* reasons your community foundation chose to act on this issue?

2. What did you do?
 - ✓ Name and specify your *three primary strategies* or *actions* your community foundation undertook to address the issue.
 - ✓ If you did any of these as part of an effort with other lead partners, name them and the role they played (without going into great detail).

3. What happened?
 - ✓ List (only) the top three most notable impacts of this community leadership effort - in relation to the issue *or* the foundation.
 - ✓ If any, what is one result that did **not** happen that you had hoped **would happen**?

4. What is your **Building Block Analysis**?
 - ✓ Now look at the updated version of the Community Leadership Framework.
 - ✓ Which **two** second- or third-level building blocks were most critical to you being able to take on this community leadership effort? Think about the factors (e.g., strategies, actions, data, relationships) that were critical to the success of your effort and consider the building blocks that are associated with those factors. (That is., this effort wouldn't have succeeded if we hadn't done *x*, or if *x* hadn't been in place. For example, this effort would not have succeeded without the active participation of the health commissioner. Or,... without hearing the opinions of community residents.)
 - ✓ Which **two** second- or third-level building blocks did you strengthen as a result of or in the course of engaging in this community leadership effort?
 - ✓ Which **two** second- or third-level building blocks do you wish had been stronger?
